Aspergillus niger IgE

TEST CODE: 77310S
CPT CODE: 86003 (x1)

Clinical Utility

This assay is used to detect allergen specific-IgE using the ImmunoCAP® FEIA method. In vitro allergy testing is the primary testing mode for allergy diagnosis.

Procedure

The ImmunoCAP® FEIA method uses as the solid phase a flexible, hydrophobic cellulosic polymer to which allergen has been covalently linked. The advantage of this system is that it has a very high antigen binding capacity when compared to other systems and it has minimal non-specific binding with high total IgE. Viracor-IBT Laboratories provides an optional low range calibrator at 0.1 kU/L and a 0/1 class. This test has been cleared or approved for diagnostic use by the U.S. Food and Drug Administration.

Assay Range

ImmunoCAP® Quantitative Scoring Guide:

<table>
<thead>
<tr>
<th>Class</th>
<th>IgE (kU/L)</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>&lt;0.10</td>
<td>Negative</td>
</tr>
<tr>
<td>0/1</td>
<td>0.10-0.34</td>
<td>Equivocal/Borderline</td>
</tr>
<tr>
<td>1</td>
<td>0.35-0.69</td>
<td>Low Positive</td>
</tr>
<tr>
<td>2</td>
<td>0.70-3.49</td>
<td>Moderate Positive</td>
</tr>
<tr>
<td>3</td>
<td>3.50-17.49</td>
<td>High Positive</td>
</tr>
<tr>
<td>4</td>
<td>17.50-49.99</td>
<td>Very High Positive</td>
</tr>
<tr>
<td>5</td>
<td>50.00-99.99</td>
<td>Very High Positive</td>
</tr>
<tr>
<td>6</td>
<td>&gt;99.99</td>
<td>Very High Positive</td>
</tr>
</tbody>
</table>

Note that Viracor-IBT includes an extra calibrator at 0.10 kU/L and uses it to define an optional equivocal class.

Causes For Rejection

Lipemic samples may lead to rejection

Turnaround Time

1-2 Business day from receipt of specimen

Specimen Information

**Serum - NY Approved.** 0.5 mL. Collect 1-2 mL whole blood in red top tube, centrifuge and transfer 0.5 mL serum into a transfer tube (Minimum Volume). Ship at ambient or frozen temperature Monday through Friday. Specimens are stable for 4 weeks refrigerated or ambient; freeze for longer storage.
Disclaimer

Specimens are approved for testing in New York only when indicated in the Specimen Information field above.

The CPT codes provided are based on Viracor-IBT's interpretation of the American Medical Association's Current Procedural Terminology (CPT) codes and are provided for general informational purposes only. CPT coding is the sole responsibility of the billing party. Questions regarding coding should be addressed to your local Medicare carrier. Viracor-IBT assumes no responsibility for billing errors due to reliance on the CPT codes illustrated in this material.
